Vortex Phase Plate

Specifications	
S/N	u14255E-R-C
Model	VPP-G-w
Material	Etched fused silica
Wavelength	λ nm
Charge	1
Phase profile	Continuous (grayscale)
Size	8mm x 8mm \pm 0.1mm
Clear aperture	Center 95%

Handling recommendations

- Open container carefully to avoid dropping component
- Use care when handling vortex phase plate
- Always use gloves
- Avoid touching vortex surface
- Blow dry compressed air to remove particles
- Surface can be cleaned with methanol and soft clean room wipe – one direction wipe, gently across surface, repeat if necessary
